

Mr. Jim White
JJ White Incorporated
5500 Bingham Street
Philadelphia, Pennsylvania

Jim,

I want to thank you for your attendance at our recent safety reward BBQ at Kinder Morgan's Carteret terminal. This BBQ was for all contractors working with the Gateway Project. Also, your continued support for these type safety activities is appreciated. I believe that the presence of higher level officers, such as yourself, at these events makes a very positive impression on field workers and staff.

In addition, I will take this opportunity to commend JJ White for an excellent job done with the construction of the seven storage tanks (total capacity = 1.035 million barrels) for Kinder Morgan's Gateway Project. JJ White's team completed these seven tanks on schedule and with a clean safety record. The co-operation, attitude, and quality of construction by the JJW field team was exceptional. The achievement of this high level of construction quality and timeliness was even more impressive in that it occurred during one of the worst winters on record for the Carteret, New Jersey area. Your construction management team of Chip Logue, Lance Logue and Ron Post were above reproach in the execution of their duties. I could not have asked for a better group. In summary, I must say that I would certainly welcome any opportunity to do a future project with JJ White. In fact, if I had the authority, I would probably insist on their participation!!!

Thank you again for your support.

Wendell Griffin
